3. This act shall take effect immediately.

STATEMENT

This bill appropriates a total of \$165,950,000 from the revenues and other funds of the New Jersey Transportation Trust Fund Authority (TTFA), of which \$100,450,000 is comprised of road and bridge projects, and \$65,500,000 is comprised of transit projects.

This supplemental appropriation increases the size of the FY 2018 capital program from \$2 billion for FY 2018 to \$2.166 billion. The TTFA primarily derives its funds from bonds that it issues and from constitutionally and statutorily dedicated sources of revenue, including the Motor Fuels Tax, Petroleum Products Gross Receipts Tax, and Sales and Use Tax. These dedicated revenues are required to be used for the purposes of paying or financing the cost of the planning, acquisition, engineering, construction, reconstruction, repair and rehabilitation of the transportation system in this State. It is intended that all of the transportation capital projects included in this supplemental appropriation conform to this requirement.
